Sir:

This is an Information Disclosure Statement submitted in compliance with the timing requirements of 37 C.F.R. § 1.97(b)(2), i.e. within three months of the date of entry of national stage.

Attached are copies of three JP publications, which were first cited in the international application, in the attached search report. Also attached are English-language abstracts and translations of respective ones of the publications, from which any relevance of the documents may be gleaned. Any relevance of the publication No. 49-84383 can be gleaned from the publication's drawings, and from the search report, where it is indicated that the reference is a category "Y" reference, i.e. the document is such that a claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other documents of the same category, such combination being obvious to a person skilled in the art. The publications are listed on the attached Form PTO-1449.

Since this Information Disclosure Statement is being filed within three months of the date of entry of the national stage, no certification or fee is required, and the requirements of 37 C.F.R. §§ 1.97 and 1.98 are deemed to be fully met as to all listed documents. Consideration of the listed documents is respectfully requested.

Respectfully submitted,

November 8, 2005
